

# FUN CASINO II HERE TODAY, HERE TO STAY.

All too often, amusement games quickly lose their appeal. They're here today... gone tomorrow. And as you well know, a machine that doesn't produce might as well be left out with the trash. Now, here to stay is Fun Casino II, the ultimate counter top game system from International Game Technology, the world leader in video gaming.

With the Fun Casino II, players can choose from 5 different action packed games, Poker, Blackjack, Hi-Lo, Craps and Derby horse racing. And soon to come is an exciting new generation of interchangeable games.

As the operator, you choose such things as hands per game, the odds, bet limits, starting score and plays per quarter. And you can quickly and easily

add new games as they are developed. You have control and you get the profits. Plus you have control over one other feature the others can't match.

**250 character spaces** for your selected advertising that continuously scrolls across the top of the screen. Now you can advertise specials, promotions... whatever you choose.

Nothing matches Fun Casino II's versatility, action graphics, player appeal, advertising capability and the power to produce big profits. So don't take a chance. Get all the facts about Fun Casino II and find out why all amusement games are not created equal.
